Cleansing and loving!!! Renee has special talents that she uses to make the patient feel comfortable and relax with the implementation of healing techniques depending on the needs of each individual. I always have good results right after each session. Also Renee has contributed to the cure and maintenance of my health during and after the cancer I was suffering. Thank you Renee, I will always be grateful to you for all your services!!!!

I just love Renee. She has amazing talent; she genuinely cares about each individual. She gets to know each person and what they would like to accomplish in their healing sessions so she can tailor your individual healing treatment. She has developed her own programs through many years of study and personal experiences that work to heal your mind, body and soul, She makes herself readily available to meet your needs. I highly recommend the services she provides. I love the person I am becoming due to the healing sessions she has provided me. She provided me tools I can use throughout my life to overcome and heal from years of trauma and abuse and keep using for all that throws at me for the rest of my life. She is truly an amazing woman.

Renee is a beautiful healer. You will feel safe and full of love with any healings she offers. She has a gift you can feel in her presence. I seek out her energy. I love her yoga classes and workshops. The Reiki healing is deeply beneficial. Give it a try!
